## KEY FEATURES

- Eliminates the need for job applications, health insurance, sick days, and dealing with turnover, solving staffing challenges for your business.
- Save jobs as a favorite and set the precise stripe angle for week-to-week efficiency and perfection.
- Includes remote control with secure e-stop control for supervised operations.
- Offered with 72" mulching deck.
- Equipped with four depth sensing cameras to monitor a safety boundary around the mower, ensuring safe operation.
- Cameras enable the mower to deviate and drive around larger stationary objects in open areas, minimizing downtime.
- Productivity of a wide area mower, but lower cost, easier to transport, and more versatile.
- Provides access to unprecedented data that helps increase efficiency and optimize mowing operations.
- Achieves a perfect, consistent cut with straight stripes, delivering a professional finish.
- Includes a service agreement with the Greenzie autonomous system to ensure reliable performance and peace of mind.
